

# Snail, Inc. Reports First Quarter 2023 Financial Results

## May 10, 2023

CULVER CITY, Calif., May 10, 2023 (GLOBE NEWSWIRE) -- Snail, Inc. (Nasdaq: SNAL) ("Snail" or "the Company"), a leading, global independent developer and publisher of interactive digital entertainment, today announced financial results for the three months ended March 31, 2023.

Jim Tsai, Chief Executive Officer of Snail, commented: "We are thrilled by the ongoing engagement surrounding our *ARK* series. We have faced the challenging choice of postponing the release of *ARK 2* until next year to ensure that we devote ample time to enhancing the game's quality and providing an unparalleled gaming experience for our players."

Tsai continued, "We have exciting plans to launch an expanded edition of the *ARK* series, which will undergo a remastering process using Unreal Engine 5. This remastered series will offer an extraordinary experience to both new and existing players, while also establishing a solid foundation for a successful launch of *ARK* 2."

## First Quarter 2023 and Subsequent Financial and Business Highlights

- Revenue was \$13.5 million for the three months ended March 31, 2023, compared to revenue of \$28.1 million in the prior year period, representing a decrease of \$14.6 million. The decrease in net revenues was due to a decrease in sales of *ARK*, attributable to a decrease in the average sales price per unit, and the recognition of additional revenue from deferred revenue and one-time payments related to contracts with certain platforms that did not repeat in the three months ended March 31, 2023. ARK sales decreased by \$3.1 million, deferred revenue from contracts decreased by \$2.5 million, and one-off contract payments decreased by \$8.5 million. Sales of the Company's smaller titles decreased by a collective \$0.7 million. These decreases in the Company's smaller titles were partially offset by \$0.2 million in revenue related to West Hunt.
- ARK: Survival Evolved. In the three months ended March 31, 2023, ARK: Survival Evolved averaged a total of 276,144 daily active users ("DAUs") versus 257,168 DAUs in the prior year period.
  - *ARK* units sold increased for the first quarter 2023 compared to the same period last year; approximately 1.6 million vs. 1.2 million, respectively.
  - Through March 31, 2023, total playtime for the *ARK* franchise amounted to 3.2 billion hours.
- The Company sold an additional 0.4 million units of its *ARK* franchise in the three-month period ended March 31, 2023, versus the prior year period, due to the increase in sales promotions offered by our platform partners during the period.
- The Company expects to release *ARK: Survival Ascended* later this year. *ARK: Survival Ascended* is the entire base game of *ARK: Survival Evolved*, remastered with Unreal Engine 5 and expanded numerous times. It'll feature The Island, Survival of the Fittest, and a collection of downloadable content ("DLC") maps released over time.
- Net loss was \$3.0 million for the three months ended March 31, 2023 as compared to a net income of \$5.8 million for the three months ended March 31, 2022, representing a decrease of \$8.8 million. The decrease was primarily due to a decrease in revenue of \$14.6 million, an increase in research and development expense of \$1.2 million, a net decrease in interest income related parties of \$0.5 million, an increase in interest expense of \$0.1 million, offset by a decrease in royalties of \$3.2 million, a decrease in license cost and license right amortization of \$1.3 million, a decrease in merchant and engine fees of \$0.5 million, and a decrease in the Company's tax provision of \$2.3 million.
- Bookings for the three months ended March 31, 2023 were \$13.3 million, a decrease of \$12.2 million, or 47.6%, compared to the three months ended March 31, 2022. The decrease was primarily the result of decreased *ARK* revenues in 2023 due to the factors mentioned above.
- Earnings before interest, taxes, depreciation and amortization ("EBITDA") for the first quarter of 2023 was a loss of \$3.4 million compared to a gain of \$7.2 million in the prior year period.
- As of March 31, 2023, unrestricted cash was \$4.1 million versus \$12.9 million as of December 31, 2022.

### **Use of Non-GAAP Financial Measures**

In addition to the financial results determined in accordance with U.S. generally accepted accounting principles, or GAAP, Snail believes Bookings and EBITDA, as non-GAAP measures, are useful in evaluating its operating performance. Bookings and EBITDA are non-GAAP financial measures that are presented as supplemental disclosures and should not be construed as alternatives to net income (loss) or revenue as indicators of operating performance, nor as alternatives to cash flow provided by operating activities as measures of liquidity, both as determined in accordance with GAAP. Snail supplementally presents Bookings and EBITDA because they are key operating measures used by management to assess financial performance. Bookings adjusts for the impact of deferrals and, Snail believes, provides a useful indicator of sales in a given period. EBITDA adjusts for items that Snail believes do not reflect the ongoing operating performance of its business, such as certain non-cash items, unusual or infrequent items or items that change from period to period without any material relevance to its operating performance. Management believes Bookings and EBITDA

are useful to investors and analysts in highlighting trends in Snail's operating performance, while other measures can differ significantly depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which Snail operates and capital investments.

Bookings is defined as the net amount of products and services sold digitally or physically in the period. Bookings is equal to revenues excluding the impact from deferrals. Below is a reconciliation of total net revenue to Bookings, the closest GAAP financial measure.
