Snail, Inc. Reports Second Quarter 2024 Financial Results

Culver City, CA – August 13, 2024 – Snail, Inc. (NASDAQ: SNAL) ("Snail" or "the Company"), a leading, global independent developer and publisher of interactive digital entertainment, today announced financial results for its second quarter ended June 30, 2024.

Tony Tian, Co-Chief Executive Officer commented, "I'm honored to lead Snail alongside an amazing team as we continue to build upon the company's incredible legacy of innovation and creativity. Our unwavering passion for delivering exceptional gaming experiences, as showcased by the phenomenal launch of *ARK: Survival Ascended*, will continue to propel Snail to future successes and victories. Looking ahead, we are excited to expand the reach of our premium mods and introduce new content that will delight our growing community of players worldwide."

Second Quarter 2024 Highlights:

ARK: Survival Ascended and ARK: Survival Evolved

- o On October 25, 2023, the Company launched its flagship remake of the ARK franchise leveraging Unreal Engine 5's stunning graphics and introduced a game-altering cross-platform modding system, ushering in a new era of creativity.
- o In the three and six months ended June 30, 2024, *ARK: Survival Evolved* and *ARK: Survival Ascended* combined for an average total of 218,241 and 213,690 daily active users ("DAUs") on the Steam and Epic platforms, respectively, as compared to 240,522 and 258,235 in the three and six months ended June 30, 2023, respectively.
- Through June 30, 2024, our ARK franchise game has been played for 3.7 billion hours with an average playing time per user of 161 hours and with the top 21.1% of all players spending over 100 hours in the game, according to data from the Steam platform.
- Since its launch, ARK: Survival Ascended sold approximately 2.5 million units and has an average of 108,515 daily active users ("DAUs") with a peak of 307,875 DAUs.
- ARK: Survival Evolved averaged a total of approximately 131,927 DAUs and sold approximately 0.5 million units in the second quarter of 2024.
- In the second quarter of 2024, the Company successfully launched Bellwright, a medieval survival game, Bob's Tall Tales DLC for ARK:
 Survival Ascended and the Power Rangers premium mod for ARK: Survival Ascended. Furthermore, a full-size DLC expansion,
 Scorched Earth, was made available to all ARK: Survival Ascended owners.

Net revenue for the three months ended June 30, 2024 was \$21.6 million compared to \$9.9 million in the three months ended June 30, 2023. The increase in net revenue was due to an increase in total Ark sales of \$10.0 million, an increase in sales of the Company's other games of \$3.9 million driven by the release of *Bellwright*, partially offset by a decrease in Ark Mobile sales of \$0.3 million and an increase in deferred revenue of \$1.9 million related to the Ark franchise

Net income for the three months ended June 30, 2024 was \$2.3 million compared to a net loss of \$4.1 million for the three months ended June 30, 2023. The improvement in net income is due to an increase in net revenue of \$11.7 million, decreased general and administrative expenses of \$1.2 million, and an increase in total other income (expense) of \$0.5 million, partially offset by increased research and development expenses of \$0.7 million, increased advertising and marketing expenses of \$0.5 million, increased costs of revenue of \$4.2 million and a decrease in benefit from income taxes of \$1.7 million.

Bookings for the three months ended June 30, 2024 was \$22.9 million as compared to \$9.3 million for the three months ended June 30, 2023, the increase was primarily due to the release of *ARK: Survival Ascended* in the fourth quarter of 2023, and the release of *Bobs Tall Tales* and *Bellwright* along with the *ARK: Survival Ascended* DLC, *Scorched Earth* in April 2024. In addition to increased net sales of the aforementioned titles, the Company deferred approximately \$7.1 million in revenue during the three months ended June 30, 2024 for the *ARK: Survival Ascended* DLC's and parts of *Bobs Tall Tales* which have not yet released; partially offset by the recognition of \$5.6 million for the release of *Scorched Earth*.

Earnings before interest, taxes, depreciation and amortization ("EBITDA") for the three months ended June 30, 2024 was \$3.1 million compared to a loss of \$4.8 million in the prior year period. The increase was due to the improvement in net income of \$6.4 million and a decrease in the benefit from income taxes of \$1.7 million.

As of June 30, 2024, unrestricted cash was \$15.5 million.

Use of Non-GAAP Financial Measures

In addition to the financial results determined in accordance with U.S. generally accepted accounting principles, or GAAP, Snail believes Bookings and EBITDA, as non-GAAP measures, are useful in evaluating its operating performance. Bookings and EBITDA are non-GAAP financial measures that are presented as supplemental disclosures and should not be construed as alternatives to net income (loss) or revenue as indicators of operating performance, nor as alternatives to cash flow provided by operating activities as measures of liquidity, both as determined in accordance with GAAP. Snail supplementally presents Bookings and EBITDA because they are key operating measures used by management to assess financial performance. Bookings adjusts for the impact of deferrals and, Snail believes, provides a useful indicator of sales in a given period. EBITDA adjusts for items that Snail believes do not reflect the ongoing operating performance of its business, such as certain non-cash items, unusual or infrequent items or items that change from period to period without any material relevance to its operating performance. Management believes Bookings and EBITDA are useful to investors and analysts in highlighting trends in Snail's operating performance, while other measures can differ significantly depending on long-term strategic decisions regarding capital structure, the tax jurisdictions in which Snail operates and capital investments.

Bookings is defined as the net amount of products and services sold digitally or physically in the period. Bookings is equal to revenue, excluding the impact from deferrals. Below is a reconciliation of total net revenue to Bookings, the closest GAAP financial measure.
